What is Venturing?

Venturing is a youth development program of the Boy Scouts of America for young men and women who are 14 (and have completed the eighth grade) through 20 years of age.

Venturing's purpose is to provide positive experiences to help young people mature and to prepare them to become responsible and caring adults.

Venturing is based on a unique and dynamic relationship between youth, adult

leaders, and organizations in their communities. Local community organizations establish a Venturing crew by matching their people and program resources to the interests of young people in the community. The result is a program of exciting and meaningful activities that helps youth pursue their special interests, grow, develop leadership skills, and become good citizens.

What a Venturing crew does is limited only by the imagination and involvement of the

adult and youth leaders and members of the crew — sail the Caribbean, produce a play, climb a mountain, teach disabled people to swim, or attend the Olympics. All these adventures and many more are being done today by Venturing crews and ships across the country. All that is needed are concerned adults who are willing to share a little bit of themselves with today's youth — tomorrow's leaders.
